	Application No.	Applicant(s)
Notice of Allowability	10/712,405	HARTNESS ET AL.
	Examiner	Art Unit
	Mark A. Deuble	3651
The MAILING DATE of this communication appears on the cover sheet with the correspondence address All claims being allowable, PROSECUTION ON THE MERITS IS (OR REMAINS) CLOSED in this application. If not included herewith (or previously mailed), a Notice of Allowance (PTOL-85) or other appropriate communication will be mailed in due course. THIS NOTICE OF ALLOWABILITY IS NOT A GRANT OF PATENT RIGHTS. This application is subject to withdrawal from issue at the initiative of the Office or upon petition by the applicant. See 37 CFR 1.313 and MPEP 1308.		
1. X This communication is responsive to the paper of 12/30/04.		
2. The allowed claim(s) is/are <u>1-62</u> .		
3. 🔀 The drawings filed on <u>13 November 2003</u> are accepted by the Examiner.		
4.		
Identifying indicia such as the application number (see 37 CFR 1.84(c)) should be written on the drawings in the front (not the back) of each sheet. Replacement sheet(s) should be labeled as such in the header according to 37 CFR 1.121(d). 7. DEPOSIT OF and/or INFORMATION about the deposit of BIOLOGICAL MATERIAL must be submitted. Note the attached Examiner's comment regarding REQUIREMENT FOR THE DEPOSIT OF BIOLOGICAL MATERIAL.

3. ☑ Information Disclosure Statements (PTO-1449 or PTO/SB/0 Paper No./Mail Date 12/30/04	8), 7. Examiner's Amendr	ment/Comment
4. Examiner's Comment Regarding Requirement for Deposit		ent of Reasons for Allowance
of Biological Material	9.	

Art Unit: 3651

REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

While Read shows a conveyor having a plurality of connected links extending across the direction of transport with each link having a gripping member connected to a slider that is movable along the length of the body to selectively move the gripping member between a first open position and a second closed position for contacting one of the objects to hold the object during transport, the slider and gripping member are not interconnected by a gear drive mechanism as required by the independent claims. Furthermore, while Bonnet shows a plurality of connected links extending across the direction of transport with a slider moved by a gear drive mechanism along the length of the body, it does not have a gripping member as required by the independent claims. Furthermore, it would not have been obvious to provide Bonnet with a gripping member because the slider of Bonnet discharges items from the conveyor rather than holding items thereon.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mark A. Deuble whose telephone number is (703) 305-9734.

The examiner can normally be reached on Monday through Friday except for alternate Fridays.

Application/Control Number: 10/712,405

Art Unit: 3651
